PREFACE

Mr. John E. Burton, of Milwaukee, Wisconsin, who has consigned to me his interesting collection of rare coins for unrestricted auction sale, was born in New Hartford, N. Y., October 19, 1847, and has been an eager and successful collector ever since boyhood. He began active life as a teacher; then established and edited a newspaper, and after serving for many years as the general manager in the Northwest of one of the large life insurance companies of New York, turned his attention to mining and the development of the Gogbic and Penokee ranges. He founded the village of Hurley, Wis., erecting stores, residences, foundries, and hotels, and later extended the field of his operations to California, and finally to Alaska.

Mr. Burton is a lover of everything of historical interest and beauty. He is best known as a collector of Lincoln material. His wonderful Lincoln library, which was sold at auction some few years ago, was pronounced as the largest collection of printed material regarding Abraham Lincoln that has ever been offered for sale. He was an enthusiastic admirer of Lincoln, a lecturer on Lincoln's life and character.

Mr. Burton's numismatic interest was not centered only in specific issues. Anything of rarity appealed to him, and collectors will therefore find this collection, which I am pleased to be able to offer, one of the most interesting numismatic offerings of the Season. The rarities and interesting specimens are too numerous to mention; the collection as a whole, is nearly all in splendid condition and of the highest interest to numismatists.

Bids will be received by me on the usual "Mehl terms"—that of satisfaction guaranteed to every bidder. The classification of the conditions of the coins has been made by me very carefully and liberally, and the unusual success of my previous sales and the unusual number of expressions of satisfaction received from my clients, leads me to believe that this sale will be as appreciated as its value and interest certainly deserves.

With my assurance of rendering you most satisfactory and pleasant service for the bids that you may entrust with me at this sale, I am,

Cordially yours,

B. MAX MEHL

The above two lots are from the Dr. Fisher Collection, who at the time of their sale informed me that these were bought from the British Museum by the late Dr. Heath. The story was given that these pieces were found while exeavating an old spring at Ataria in Eastern Italy. In former times this spring had steadily furnished water, for all other springs and streams had gone dry, and to please the partieular God of this spring, the people had thrown this money, jewelry, ete., into the spring, where they remained for hundreds of years. (The story is good even though it is a fabrication.)

Interesting Collection of Chinese Coins.

480 Collection of over five hundred all different Chinese coins and amulets, including all of the odd-shaped pieces, knife money, razor, key and other peculiar forms. The entire collection is arranged in a solid walnut cabinet, consisting of thirty (30) trays, satin lined, with the coins attached with silk thread and numbered. The collection is accompanied by a catalogue describing each and every piece, giving the Chinese characters, their translation into English and the date of the coin. The collection was formed by Mr. Hwong Ping Sing, of Fu-Chow, in 1872. The entire collection will be sold as one lot and includes the cabinet, which alone would now cost $25.00 or $30.00 to manufacture. A most interesting collection, both for the numismatist and student as well. (From my sale of May 15, 1917, at $130.00).

TERMS OF SALE

PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS.

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalogue. This guarantee holds good indefinitely.

NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, April 30th, 1918.

If you have any coins that you want to sell either at auction or private sale, write me for terms.
